P61	15.1–15.9	NSFC only	4	27
P62	15.4–15.5	NSFC only	2	15

Stability refers to the national test. Every selected pair is displayed in both countries, including observed zeros.

Full official Target labels and all record counts are available in the accompanying CSV files.

NSF city index | 1–100 of 334

IDs follow tree-leaf order. Region codes distinguish cities with the same name.
