a Subnational geography of research supply

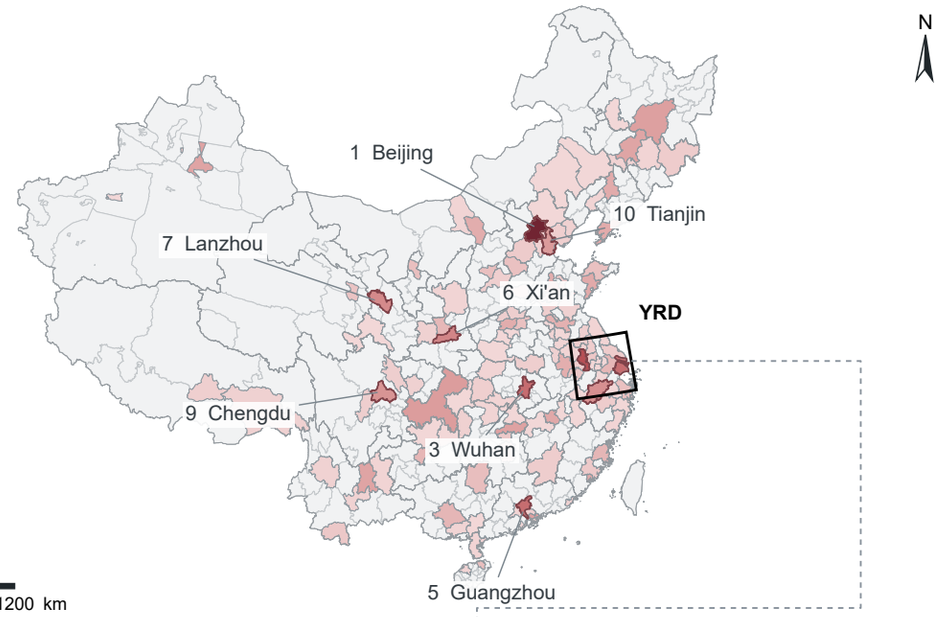

United States · NSF

Counties and equivalents · 352 units with supply

China · NSFC

Prefecture-level units · 126 units with supply

County supply / national sample supply (%)

0 0.1 0.5 1 2 2.659

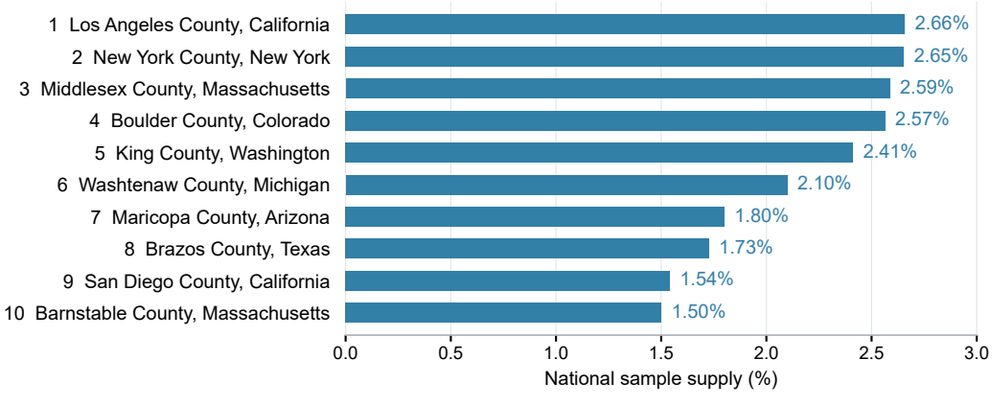

City supply / national sample supply (%)

0 0.1 0.5 1 5 10 21.980

No allocated sample supply

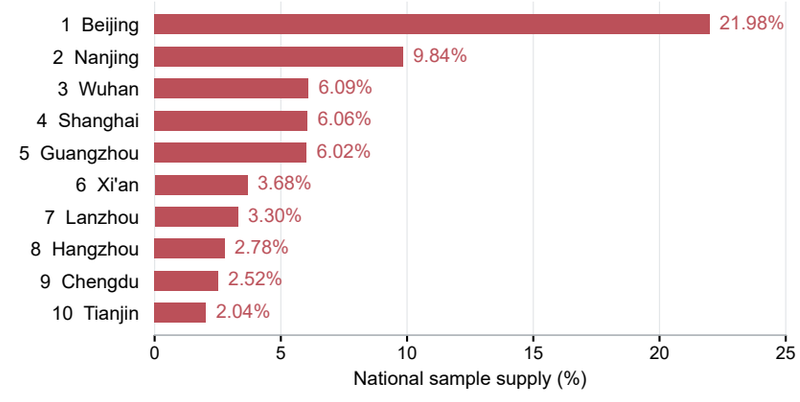

Map colours: square-root scaling; separate national ranges. Dark outlines and ranks identify the top 10.

Top 10 counties

Top 10 cities

Ranked bars use separate linear axes; concentration strips share a 0–100% scale. U.S. counties and Chinese cities are distinct administrative units.
